ABOUT THE COLLEGE

The College of Health Environmental and Safety Studies offers a range of HSE and related programmes, geared towards providing you with the technical competence required for discharging your duties as it relates to occupational safety and health.

ABOUT NEBOSH

NEBOSH qualifications are recognized and respected by employers in all business sectors and provide the benchmark standard against which others are compared. They are offered by over 400 course providers throughout the UK and overseas.

NEBOSH CERTIFICATE IN FIRE SAFETY AND RISK MANAGEMENT

For Whom is the Programme designed?

The NEBOSH Certificate in Fire Safety and Risk Management is a new qualification for those with fire safety responsibilities in the workplace. It was launched in 2005 and is already established as a popular qualification in the UK and abroad.

What can I benefit from the programme?

Courses leading to this qualification should equip holders to carry out fire risk assessments of most low risk workplaces and identify the range of fire protective and preventative measures required. It is therefore also suitable for people moving into fire safety advisory roles.

Structure of the Programme

The qualification is divided into three units, each assessed separately:

UNITS

- NGC 1- Management of Health and Safety
- FC1- Fire Safety and Risk Management
- FC2- Practical Risk Assessment
