COURSE GUIDE

NEBOSH CERTIFICATE IN CONSTRUCTION HEALTH AND SAFETY

“Many larger construction organisations choose the NEBOSH National Construction Certificate as a key part of their supervisory or management development programme. By ensuring that line managers have a sound understanding of the principles of risk management they build an effective safety culture in the company.”

ABOUT THE COLLEGE

The College of Health Environmental and Safety Studies offers a range of HSE and related programmes, geared towards providing you with the technical competence required for discharging your duties as it relates to occupational safety and health.

ABOUT NEBOSH

NEBOSH qualifications are recognized and respected by employers in all business sectors and provide the benchmark standard against which others are compared. They are offered by over 400 course providers throughout the UK and overseas.

NEBOSH CERTIFICATE IN CONSTRUCTION HEALTH AND SAFETY

For whom is the Programme designed?

The NEBOSH National Construction Certificate is aimed at Supervisors and Managers within the construction industry who are required to ensure that activities under their control are undertaken safely. It is likely to prove useful for those concerned with the management of buildings who may need to ensure that contractors are working safely. The qualification is also appropriate for supervisors and managers working in other industries such as utilities, and even broadcasting, where temporary workplaces are a feature of their activities.

What can I benefit from the programme?

It covers a broad range of construction hazards and the means by which they can be controlled. It includes the main legal requirements relating to construction work and enables students to undertake effective safety inspections on a construction site.

Structure of the Programme

The qualification is divided into three units each assessed separately:

UNITS

- NGC1 Management of health and safety
- NCC1 Managing and controlling hazards in construction activities
- NCC2 Construction health and safety practical application

Are you already one step towards your NEBOSH National Construction Certificate?

Unit NGC1 (Management of health and safety) is common to the NEBOSH National Construction Certificate, the National General Certificate and the Certificate in Fire Safety and Risk Management, enabling students to combine units across NEBOSH qualifications. Students do not need to re-sit any units already successfully achieved providing they were gained within the last five years.

COURSE FEE

The course fee includes Registration, Tuition, Course Materials and Examination. Cheques are to be made payable to COLLEGE OF HEALTH ENVIRONMENTAL AND SAFETY STUDIES. Contact the college office for further details.
